👤 Born 2001
Owner of a full driving license

WORK HISTORY

📅 Currently	Freelance Full Stack Developer
📍 We-Are	
📅 2022-2023	Freelance Full Stack Developer
📍 Allsource.io	
📅 2021-2022	Full Stack Developer
📍 IDLab	
📅 2020	Bartender
📍 Moeder Lambik	
📅 2016-2019	Bartender
📍 Hippo 12 Bredene	

EDUCATION

📅 Currently	Bachelor of Science in Computer Science
📍 University of Ghent	
📅 2020 - 2022	Finished first two years with distinction
📍 University of Ghent	
📅 2013 - 2019	Mathematics and Science
📍 Koninklijk Atheneum Zottegem	

NOTABLE PROJECTS

- Working as a fullstack developer at We Are where I work on both frontend and backend in a large set of webdevelopment projects.
- 'AI: Airplane Detection', university research paper in which we trained an AI to recognize specific airplane models using a ResNet. Received the highest possible grade.
- Worked as a fullstack developer at Allsource.io LLC, where I used my frontend and backend skills to display millions of datapoints in a format that allowed users to easily analyse NFT collections.
- Filmer, a tinder-like website to help you find movies to watch. React frontend, django backend and advanced solid integration.
- Several projects on the subject of distributed knowledge graphs & Linked data including Walder, while working at IdLab.
- Previous owner of earth2stats.xyz, a website displaying advanced stats and features about the NFT like platform earth2.io.
- bkoosterzele.be first website in pure PHP, HTML and CSS at the age of 15.
